## AN ANOTHER NATURAL LIGHT

Of course, choosing LED lighting is environmentally responsible. It reduces energy consumption and waste because of its incomparable efficiency and lifespan. But why stop there?

Our Wood Series fixtures use Parallam PSL, which, in addition to its beauty, durability and mechanical qualities, captures carbon over its virtually unlimited lifespan.

In addition, the wood that makes up this series comes from American and Canadian forests whose ecological management is certified by the Sustainable Forestry Initiative.

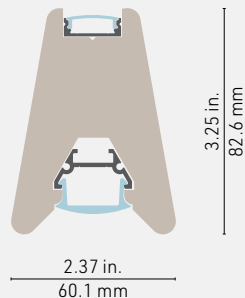

# PIKE

Go edgy and playful with a youthful approach on the classic of wood. The **PIKE** is the profile with the **most discreet light source** in the series, for a fresh yet unobtrusive visual presence that is particularly fit for social spaces, whether recreational or collaborative.

## FEATURES

- Engineered from sustainably harvested wood, for superior mechanical quality and to bring out the natural wood texture.
- Designed to give a uniform light without hot spots with an Optiflex, Opal, or Prime lens.
- Custom length by sections of 12 to 144 inches (3.6m).
- Application guide for 10mm (3/8-inch) LED engine or less.
- The insert is made of ALCOA 6063-T5 aluminum alloy increasing heat dissipation.
- Available in varnished finish.
- Natural finish available on special order with a setup fee. (With this option client can apply their own finish to match their decor.)

# TOOBYFOR

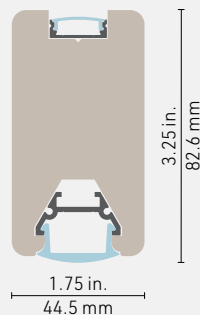

The **simplicity and minimalism** of **TOOBYFOR**

makes it a welcome accent in contemporary spaces. Like the rest of our Wood Series, it is engineered from sustainably harvested wood, for natural warmth and superior quality.

It is durable with its rugged build and an aircraft-grade suspension cable, but brings a lightweight and modern touch to any interior.

## FEATURES
